What You Don't Know Can Hurt You and Those You Love

Get Tested for COVID-19 - Find an HCPH Test Site Near You

Houston – Four in 10 people who are infected don't know they have COVID-19 because they don't have symptoms, but are still contagious. Find out if you have the virus by getting tested. If you haven't been vaccinated yet, and most people haven't, the risk is increasing for you and your loved ones to contract the virus. Cases, hospitalizations and deaths are rising nationally and in Harris County. However, we all have the power to help stop the virus right now: take precautions – wash your hands, avoid crowds and when you're around people you don't live with, wear a mask and stay 6 feet from them – *and* get tested.

Testing is *free* and quick at HCPH test sites, you get your results in 3-5 days. Children can also be tested at the sites listed below. Register at hcphtx.org or call 832-927-7575.

Monday, January 25 – Saturday, January 30
